

Layout Methods for Scientific PDF Understanding

This paper introduces layout aware chunking and page referenced evidence for full paper understanding. The method preserves section text and associates every extracted chunk with a source page.

Table 1: Docling first extraction reaches table F1 of 0.91 and caption recall of 0.88.

System	Table F1	Caption Recall
Docling-first	0.91	0.88
Plain text	0.72	0.40

Figure 1: The pipeline converts PDF pages into text chunks, table chunks, and caption chunks before synthesis.
